

# Account and Software Setup

## MMTF-2017 Workshop

---

### *Gmail Account*

We will use Google Drive during the workshop to share and co-edit documents.

- To create a Gmail account: <https://accounts.google.com/SignUp?hl=en>

### *GitHub Account*

To access and contribute to our and your own software projects, you need a personal (free) GitHub account.

- To create a GitHub account: <https://github.com/join>

### *Install or update Java Development Toolkit (JDK)*

We require the latest version of the Java Development toolkit

- Download and install  
<http://www.oracle.com/technetwork/java/javase/downloads/jdk8-downloads-2133151.html>

### *Install Eclipse IDE for Java Developers*

We will edit and run code in the Eclipse IDE. Make that sure you have the latest version installed (Eclipse Neon.3 (4.6.3) or higher).

- Install Eclipse  
<http://www.eclipse.org/downloads/eclipse-packages/>

### *Install Git*

We will use the command line version of Git to checkout projects from GitHub.

- Install Git  
<https://git-scm.com/book/en/v2/Getting-Started-Installing-Git>
